Our strategies and plans, performance indicators, audits, inspections and reviews

We will continue to provide excellent primary care services for all our patients in line with NICE guidance. We remain accessible to our patients and we continually monitor our performance in several ways- we monitor our QOF targets, perform quality checks on our equipment and clinics, all staff participate in annual appraisals, we undertake an annual patient survey and have a patient participation group to help us identify where changes need to be made.

All partners are reflective practitioners who reflect on their own practice regularly and video patient consultations (with permission) in an effort to improve their consultation skills.

Our QOF indicators enable us to audit our performance in the management of chronic diseases and individual audits are undertaken as they arise. We have a robust system of significant event analysis and regular staff meetings are held to ensure compliance with written protocols.
